

LOCATIONS

When you first enter the city, there are 3 different locations.

Location 1: The Canal (figure 1)

Location 2: Concrete Wasteland (figure 2)

Location 3: Ghost Town (figure 3)

(figure 1)

(figure 2)

(figure 3)

In each location, if you wait about one minute and ignore the navigation ARROW prompts, you will see prompts for videos using your [ENTER] key. You can press [ENTER] to watch each video, and after the video you will be returned to where you entered the video. At the end of each location, if you do nothing (don't press any keys) you will find another hidden video. After watching each hidden video, you will be returned to the start of that location.

Unlocking the Secret Location

At any point in any location, simply press the [UP] arrow key on your remote. Once you have watched this video (or fast forwarded to the end), you have unlocked the secret 4th location.

Location 4: The Tunnel (figure 4)

You can find new videos in The Tunnel, along with a whole new set of remix videos in the first 3 locations. The same navigation, video prompts and actions apply.

(figure 4)

HINTS

- Refer to the Male or Female DVD Maps to quickly navigate through the DVD.
- Use the [FAST FORWARD] and [REWIND] buttons to move faster throughout each location, especially once you become familiar with the timing of the Navigation and Video prompts.
- The locations loop in order, so you can save time by waiting for the correct Navigation prompt to either jump right to the next location, or left to the previous location.
- The last location (location 3, or location 4 if unlocked) will jump right to location 1. Similarly, location 1 will jump left to location 3, or location 4 if unlocked.
- Press the [UP] arrow key on your remote in any location to unlock the hidden location. This will jump you to the Girl Drowning video, which is the gateway to the 4th location.
- To fully unlock the hidden 4th location (The Tunnel), you need to pass through the entire Girl Drowning video, either by watching it to the end, or [FAST FORWARD] to the end.
- Once you unlock the 4th location, don't forget to visit the first three locations, which will then have new remixes of the music and videos.
- If a video has different remixes according to the Maps, you can press the [ANGLE] button on your remote to switch to another remix.
- A full list of credits is at the end of the hidden video in the 4th location, Sculpture Sans Titre.
